Olivia I. Okereke, MD, MS, Brigham and Women's Hospital

Leon Reijmers, PhD, Tufts University

Jack T. Rogers, PhD, Massachusetts General Hospital

The mission of the Alzheimer's Association is to eliminate Alzheimer's disease through the advancement of research, to provide and enhance care and support for all affected, and to reduce the risk of dementia through the promotion of brain health.

The Alzheimer's Association is the largest private funder of research into the causes, treatments, and prevention of Alzheimer's disease, having awarded more than \$265 million in research grants, with over \$1.9 million awarded last year in Massachusetts.
